### Operational Permit Information

Describe The Operation For Which This Permit Is Being Applied For And Other Needed Information

The person applying for the above described permit shall be responsible for submitting all required drawings, sketches, manufacturers datasheets, product manuals, site layouts, MSDS sheets, and any and all other required information to detail the compliance of the proposed operation at the time this permit application is submitted to the Fire Marshal's Office. Once all required actions of compliance are complete, a site inspection shall be conducted by the Fire Marshal's Office as needed to verify compliance with the Fire Prevention Code.

These answers have been given to the best of my ability and knowledge. I hereby understand that any answer deliberately falsified or misrepresented shall be justification for revocation of the permit.
