The earliest years of childhood are critical. Experiences during this time literally shape the structure of the brain. Because today’s children are tomorrow’s leaders, parents, and workers, everyone has a stake in making sure that all children have the experiences they need to thrive. Smart Start brings together all the people involved in a young child’s life—families, teachers, doctors, caregivers, social workers and many others—to ensure every child has all they need for healthy growth and development.

The work done to publish this guide was funded by Smart Start. Smart Start is North Carolina’s nationally recognized and award-winning early childhood initiative designed to ensure that young children enter school healthy and ready to succeed.

Since 1999, AMERICORPS AND CHILDREN TOGETHER (ACT), a program of Stokes Partnership for Children, has been “Getting Things Done” for children in North Carolina. ACT combines the AmeriCorps national service program with North Carolina’s Smart Start initiative. ACT serves young children by placing AmeriCorps members in childcare settings as Early Childhood Education Assistants. The ACT program was designed to assist with the need for teacher education and the enhancement of quality childcare, for children birth to five. ACT does this by: 1) training AmeriCorps members in child development and early childhood education; 2) utilizing members as substitute teachers, thereby providing regular teachers/providers with release from the classroom to pursue coursework in early childhood education; and 3) utilizing members as assistant teachers as a means to reduce the high teacher-child ratios and provide additional resources to care providers.

The AmeriCorps members receive a modest living allowance for providing these services, and an Education Award. As well, the program provides tuition for ACT members to enroll in college courses and earn NC Early Childhood Credentials I & II.

Choosing Quality Child Care

If you are a parent who is seeking child care for a young child, choosing quality care is one of the most important decisions you will ever make for your child.

Some questions to consider:

Is the program licensed by the Division of Child Development or Nationally Accredited?

Do they have a Star Rating? 1 star facilities meet minimum licensing requirements. A 2 - 5 star rating means the facility meets higher program standards and higher staff education levels.

Ask about the training, education and experience of staff.

What is the program’s philosophy?

Do they provide a safe and clean environment that ensures the health and safety of the children?

Is the staff interaction nurturing, warm and caring?

What is the staff to child ratio? Is it low enough so that there are enough staff to supervise all of the activities of the children?

Do they provide an age appropriate, fun learning environment that promotes the social, emotional, physical and intellectual development of children?

Is there an “open door” policy that encourages parent and family involvement?

Are there nutritious meals and snacks provided for the children?

Parents can use the NC Division of Child Development’s website to find information about licensed facilities at: www.ncchildcare.net

“We worry about what a child will be tomorrow, yet we forget that he is someone today.”
