

136-44.7. Secondary roads; annual work program

The Department of Transportation shall be responsible for developing criteria for improvements and maintenance of secondary roads. The criteria shall be adopted by the Board of Transportation before it shall become effective. The Department of Transportation shall be responsible for developing annual work programs for both construction and maintenance of secondary roads in each county in accordance with criteria developed. It shall reflect the long-range and immediate goals of the Department of Transportation. Projects on the annual construction program for each county shall be rated according to their priority based upon the secondary road criteria and standards which shall be uniform throughout the State. Tentative construction projects and estimated funding shall also be listed in accordance to priority. The annual construction program shall be adopted by the Board of Transportation before it shall become effective. For further questions feel free to contact the Forsyth County District Office at 336-703-6600
